

As I walked along the sky  
Of my dream you came alive  
And it feels you'll make a change  
In my whole life  
And I know you will be there  
There for me to make me stare  
And it will be always and  
Forever in my dream

Dream, it makes me change but not for real  
'Cause I only see you smiling  
In my dream, and that's the only time  
I make you feel  
That my love for you is real

As I walked along the sky  
Of my dream you came alive  
And it feels you'll make a change  
In my whole life  
And I know you will be there  
There for me to make me stare  
And it will be always and  
Forever in my dream

Come to me and hold me in my dream  
Let me touch you for a while  
And don't let me realize that I am dreaming  
'Cause I'll be missing you  
Oh I'll be missing you

As I run along the sky  
Full of dreams, hopes and lies  
You just come to make me feel  
That we're supposed to be together  
And I know you will be there  
There for me to make me stare  
And it will be always and  
Forever in my dream

As I run along the sky  
Full of dreams, hopes and lies  
You just come to make me feel  
That we're supposed to be together  
And I know you will be there  
There for me to make me stare  
And it will be always and  
Forever in my dream  
Forever in my dream
