

# If Only

6cyclemind

I know that I can be the one  
To make you feel alright  
I know that I can kiss away the pain  
To brighten up your night  
If only you'll say  
If only you'll stay

Will you believe in destiny  
Will you believe in destiny, will you  
Like Romeo and Juliet  
They lived and died together, yes it's true  
Now if only you'll say  
If only you'll stay

Tell me softly what you want to hear  
Hold my hand, we'll run away from here

You know that I'm always here  
You just have to open up your eyes  
If you could only hear me now  
Please say what you have to say  
If only you'll say  
If only you'll stay

Tell me softly what you want to hear  
Hold my hand we'll run away from here  
Tell me softly what you want to hear  
Hold my hand we'll run away from here  
Tell me softly what you want to hear  
Hold my hand we'll run away from here  
Tell me softly what you want to hear  
Hold my hand we'll run away from here
