

## Sentimental Gargabe

6cyclemind

It's been hard for me to see  
Just thinkin' about the cold nights  
Can't help myself, I'm drowning inside

Stepping in the wrong side  
Forcing me into the savage land  
Within me is the poison of the world

Can you see me, I'm falling apart  
Can you help me, I'm shaking inside  
Please just take me  
Please just take me

Breathing the smoke around  
Chasing those spirits behind  
Blinding the staring light  
Hoping it will collide with you

Breathing the smoke around  
Chasing those spirits behind  
Blinding the staring light  
Hoping it will collide with you

Take out, take out, take out, take out, take out the trash  
(Sentimental garbage!)

Take out, take out, take out, take out, take out the trash  
(Sentimental garbage!)

Take out, take out, take out, take out, take out the trash  
(Sentimental garbage!)

Take out, take out, take out, take out, take out the trash
