

Touch

6cyclemind

Feel me
I want you here by my side
The way you touch my soul
Is the way you heal my heart

Here I am, I'm pleading
Hear my plead, it's forever

So touch me now
Feel my hand
You are the one
You are the one
So touch me now
Leave your doubts
You are
Yes, you are

Save me
Breathe life back into my night, oh yeah
The time you give me hope
Is the time you give me life

Here I am, I'm pleading
Hear my plead, it's forever, ever, ever

So touch me now
Feel my hand
You are the one
You are the one
So touch me now
Leave your doubts
You are
Yes, you are, oh

Hear me now, I'm pleading
Hear my plead, it's forever, ever, ever

So touch me now
Feel my hand
You are the one
You are the one
So touch me now
Leave your doubts
You are
Yes, you are, oh

Touch me now (touch me now)
Feel my hand (feel my hand)
You are the one
You are the one
So touch me now (touch me now)
Leave your doubts (leave your doubts)
You are
Yes, you are

Feel me
I want you here by my side
