Fire on a nigga if he fuck with my soldier
Try and play me like a pussy nigga, but it won't work
If you need a plate, then you could hit me on my turf
I need twenty-five, try to stick me and that gun burst
I need all of mine, try to try me and it's Columbine
Let that ruger fly, automatic popping at your guys
You gon' lose a guy, 'tato on the barrel, give 'em fries
On that type of time, for my wodie, that's my fucking slime
On that type of shit, pulled up bloody, you get crucified
Bet I come equipped, we got extendos, we got extra clips
We tote all types of shit, 357 blow your ass, lil bitch
We ain't calling quits 'til you end up in a coffin, bitch

I lose my shit when I let that fo' five go
I'll blow that bitch, knock the beef out your taco
You know what time it is when we pull up that tahoe
Unload that dirty clip and I'm busting out hollows, that's how it go

They don't want no smoke, they don't want none
They don't want no smoke, they don't want none
They don't want no smoke, they don't want none
