Drugs in my veins taking passage  
Laid out trippin flipping addict with the habits  
Paid a couple thousand for the casket  
Niggas wanna sleep well after living savage  
Vertical face split, skip the fuckin case shit  
Bags in my eyes and my dreams in the hell pits  
Burnin all my pictures from the scenes in the mansion  
Using dirty dishes mentally I'm Charles Manson

Smooth nigga, false step you rise  
Don't Move nigga, crosshairs in sight  
The Zoo nigga, concrete both sides  
Who you nigga, one step you die  
Tekashi69 from that scum fuckin squad no doors break the walls  
scum gang till I fall

Zilla resurrect outta the crypts  
The lochness off rip green yellow the piss  
The Palm grip four fifth runnin round in the trench  
Want shit talk shit might rip off ya lips  
If you god I'm Kratos, the blackest of rose  
The flower that bloomed at Selena it's thrown  
The Yokai killer creepin in the grove  
Y'all niggas pose I'm gone bake in the stove

Came to the god and ya jaw got bent  
Big shit loud like the block got hit  
Came outta jail still hitting them licks  
Off on bail still flicking that wrist  
Want Collabs ain't doin it for nuthin  
Wanna meet up scum gang ain't trustin  
Gettin beat up nah slick we bustin  
Switchblade hip square up I'm cuttin

Acting like you scum but it ain't in ya veins  
Acting like you scum but it ain't in ya brain  
Lord of gauze and the God of the pain  
Man I draw with force of the four horseman  
Hundred to a thousand to the gold fuckin brick  
You Fuckin with the rawest of the raw with the grip  
With ya white tee cotton and the shit say rip  
Ten toes never ever trip bitch
