

COME ALIVE

6LACK

You come alive when I'm inside you girl
What else I gotta do it to remind you girl
Yeah, I know what I did was wack but you don't get a niggas back like that
Yeah
You don't go back and forth, you don't ...
You don't switch sides you don't play those type of games yeh
You come alive when I'm inside you girl
What else I gotta do it to remind you girl
Niggas ain't like me, they ain't even trying to change your world
They just wanna say that you they girl

I ain't no doubt you been running my mind
(My mind)
Another day without you I lose time
(Lose time)
Like that
Like that

You ain't have to get me back like that
You ain't have to get me back like that
Would you still love me if I loved you
Would you still want me to come and hold you
You know me and you posed to stay closer
I just want you back in my bed
The sun rising while I lay it down
You come alive when I'm inside you
I get so wrapped in you I'm blinded
Just trust me, let's try again

Come alive when I'm in it
Pay the price for them walls like a tenet
Pass a bill then a hundred more bills like the senate
Need a jet, I'ma send it
If she wanted I'ma get it, get it, don't stop
Get it, when I'm really in love with it
I gotta pen it
Point blank period, I do a sentence for it
These other niggas wishing short temper I should ignore it
But when I hear your name I'ma control freak
I say sheets or no sheets
It never mattered, I'm putting it on a platter
We got this running joke when I'm inside
And hitting on the regular, it gets fatter
I put you in some shit, you can't pronounce
But you still wanna announce
Don't you switch sides wit me like half-time you running routes
But I don't wanna take it there
Baby we should play it fair
I come inside you, come alive

It ain't never been for share
Dream life under the moonlight
But we just gotta make it there
