

I Hate U

6LACK

Wondered if I hate you
I'm just happy that I ain't you
You look too good
Something feels unfaithful
Maybe I'm just riddled
I'm just bitter like grapefruit
Know I use to hit it on my Bay roof
Used to get it in, no weight room
Pull up in that, uh
Remind you of that, uh
Time in your room
Sleep with a smile on my face from the shrooms
Why you jump ship and not the broom?
Feelin' doomed
You know you was fuckin' with a real one
Treat you like a label when the deal done
Hate is a strong word (Strong word)
You won't find another like me
I was like your small circle (Oh)

So if you wondered if I hate you

That take way too much energy
Postin' old pics, hmm
Here go your sympathy
Heard you on that voicemail
Soundin' like a symphony
Sent for me, send it back
Lost the groove, get it back
Back and forth, tennis match
Never been into that
I think it's time we finally finished that
Kill the noice, pack it up
And never ever mention that
