The only rapper who can go on the road and don't fuck with no groupies
If it don't make sense or dollars

And my airport clothes, they Prada
I work harder than all the rest
And I'm wishing you all the best

Now all my bags belong on jets
Yes, so many war wounds, I had to make more tunes
Gotta cancel these niggas they cancelled
Couldn't even enjoy joy
But I'm a living, walking, fun guy
Even though I had some tough times
Made my bed on the front line
One time for the, one time for the one time

I fought the fight
Roll up the dice
Bet on my life
Paid the price
Take no advice
I been in the field and I know my wrongs and I know my rights

I fought the fight
Roll up the dice
Bet on my life
Paid the price
Take no advice
I been in the field and I know my wrongs and I know my rights

Keep my head on my neck
Put my foot on ya ass
I done ran out of passes to give

Use to give passes for real
I keep on passing on deals
One day I'ma chill
One day I'ma get a spot in the hills
But until, I'm serving these packs
Keep on murdering tracks
Keep on rolling the dice
Got my life in this shit
I'ma ride, I can't switch, I'll die for this shit
