Who's that on your line love
Heard you got a new best friend
Spending hella time lately
I'm not the only one that you invest in
Why you gotta go so soon
Running only makes things worse
Ohh you been steps ahead lately
Feels like you got your lines rehearsed

We as on the same wave
Who told you to change thangs
I thought that we was gang gang
Use to slide through with that thang thang
Fucking up you bayang
Turned you to my main

So they don't got history like we do
Don't got that chemistry like we do
They don't got history like we do
Nooooo

Who's that on your line love
Heard you got a new best friend
Spending hella time lately
I'm not the only one that you invest in
Why you gotta go so soon
Running only makes things worse
Ohh you been steps ahead lately
Feels like you got your lines rehearsed

We had a lot of fun
But I ain't the only one
I could never take it personal, personal had it worse before
Who that on ya line I don't care
Cause I make women flock anywhere that I go
But they don't got chemistry like we do
They don't make history like we do
You could never be what I am
Best friend we like fam
He don't check all the boxes I can
Put you in drop top Benz
Hit it like a stop watch then
Take you for a quick shop
He like top shop
I'm like top notch in
She said I'm leaving that's cool, girl I ain't going nowhere
Cause I got nothing to do
And so much time I can spare
I turn you up like gym
Then leave you tripping like damn
I hit that up like a scam
It's all apart of my plan

So they don't got history like we do
Don't got that chemistry like we do
They don't got history like we do
Nooooo
