

Outside

6LACK

This was not in the set
But I spoke to somebody on the Internet
Who just got through, uh, cancer treatment
If I'm not mistaken
So tonight I wanna celebrate life
And I wanna dedicate this song to you
Y'all make some noise
I told you I got you

I'll give you the time of your life
Just wait 'til we can go outside
It's been a while, we been locked in
D-D-D-D, D-D-D-D, D-D-damn
I'm excited just to hold your hand
I'm still stuck on love like it's crazy glue
Me without you, I'll probably fade to blue
Another love song look what you made me do

I need someone
I can play with
When it's time to go outside and play again
I need someone
I can play with
When it's time to go outside and play again

Love you
Thank you

I'll see you after the show, alright?
Love you too
