

Temporary

6LACK

Don't take it personal
You know I know it hurts to go
Carry the weight and I ignore the pain
This might cost a lot
Charge the game

Won't miss the fighting, but I know you miss me
I just hope you get a feel to kiss me
We break, then shake, no fake, you make me smile
Sun, rain, or snow, girl, I want you around

That's how I know, I can't give you up
Most times, it's temporary
Most girls are temporary
Most feels are temporary
This time it's not, this time
I can't give you

That's how I know, I can't give you up
Most times, it's temporary
Most girls are temporary
Most feels are temporary
This time it's not, this time
I can't give you

Got karma on my mind, so, don't talk bad on us
Bad features, I can't tolerate them barking on us
We part ways and keep operating?
Heartbreak for us
Got Patron for us, yeah, breathe in, then breathe out

New links and new rules for myself
Reach in to reach out
Soon as I hop out the whip
We break, then shake, no fake, you make me smile
Sun, rain, or snow, girl, I want you around now

That's how I know, I can't give you up
Most times, it's temporary
Most girls are temporary
Most feels are temporary
This time it's not, this time
I can't give you

That's how I know, I can't give you up
Most times, it's temporary
Most girls are temporary
Most feels are temporary
This time it's not, this time
I can't give you
