6LACK

Wind might carry us farther, just open your arms
Rain might pour a lil' longer, just weather the storm
Long as I got you
And you got me
And we got us
Then maybe it's three
For now or forever
Still won't be enough
The harder I feel
The softer I touch

It was always you
Play with him, play with her, but don't play with me
I am not one of them, I'm tryna make you see
It was always you

Heaven knows it was always you (Heaven knows)
Know God got us
God's got us
That's our love
Never leave ya
No

Heaven knows it was always you
Know God's got us
That's our love (Our love)
Never leave (Never)
No
