

Another song on the day, gettin' burnt out  
Could show you how to make some money as a burn out  
Another hoe left me to dry, I need a bird house  
Another promise never kept, it didn't work out  
Look at how I turned out  
Took some drugs that made it hard to get the words out  
Drink too much in hopes that I can get the curse out  
Drink too much, it's gettin' fuzzy, startin' to blur out

Do you see the pain in my eyes? Probably not, try to hide it  
Don't want fame, just the guap, but the two coincided  
Shit is lame, should I stop? I don't know, undecided  
Wakin' up to this shit but I must stay silent  
Really hate that  
Know I ain't that, but I guess it ain't bad  
Thinkin' way back  
Look at what you made, why you had to say that?  
Really hate that  
Know I ain't that, but I guess it ain't bad  
Thinkin' way back  
Look at what you made, why you had to say that?
