

She gave me more than I could ever handle
I just think I'd do it better if I worry 'bout my feta
I said please save me from myself just want my head up
I just lay under the weather, sip this drank it make me better
Sip this drank, it make me better off
I don't fuck with nobody all
Sorry baby, I don't want a call
Spirit in me want my money long

She want me to meet her, in the way, I had to blow it off
Unless you pop it baby, show it off, yeah lil baby, throw it all
After that get goin' aw
You can get right back to hoein' off
All hoein' shit she right back
Bitch no I don't care about you, where yo friends at?
I can't pop no pills, I'm worried 'bout a damn sack
Takin' off, I hope hell won't be where I land at
So baby don't wait for me
I think it's too late for me
It's driving me crazy
Somebody please save me

She gave me more than I could ever handle
I just think I'd do it better if I worry 'bout my feta
I said please save me from myself just want my head up
I just lay under the weather, sip this drank it make me better
Sip this drank, it make me better off
I don't fuck with nobody all
Sorry baby, I don't want a call
Spirit in me want my money long

Want my bands bigger
I don't need no fucking friends, I don't want plans with ya
Yeah my plans bigger
In ya face but you still ain't gon' see the damn picture
Sit here drinking all this damn liquor
Kick that bitch right to the curb harder than damn kickers
Devil came right up to me said can I dance with ya
Now I'm goin' up in smoke just like a damn swisher
Least now I'm next
Least I know what's ahead
But when I am dead
It's gon' be so much pain

She gave me more than I could ever handle
I just think I'd do it better if I worry 'bout my feta
I said please save me from myself just want my head up
I just lay under the weather, sip this drank it make me better
Sip this drank, it make me better off
I don't fuck with nobody all
Sorry baby, I don't want a call
Spirit in me want my money long
