Blind

It's true that love can make you blind
I want you but is it the right time
Without you I might lose my mind
I lie every time I say that I'm fine
You give me love but it don't feel right
The ups and downs so it's hard to get high
I still feel alone but I don't know why
It's just that I'm already numb and we can start that fire

This is more than I can deal with
Call me over let me feel shit
I just wanna feel something
Oh yeah, I forgot about one thing
If I told you the truth you would never want me
Baby, you eating me alive and it really haunts me
I always wanted this life but it really haunts me
You will never understand what this never cost me

My life awaits so if I die and I fly away, shit'll move on
More time to waste, need a flight to LA, I'ma find a way to pursue on
I'm feeling stressed and I've been depressed and I need some rest so I can move on
No time to think, I tried my best but I made a mess, I'm so tired
Pop an addy to think, hurling over the sink, and I feel like we're sinking
I been looking for answers, but I feel like a cancer so I'm surrounded by demons
Try to see through the smoke and I would give up my soul if I could just have a reason
Try to see through the smoke and I would give up my soul if I could just have a reason

It's true that love can make you blind
I want you but is it the right time
Without you I might lose my mind
I lie every time I say that I'm fine
You give me love but it don't feel right
The ups and downs so it's hard to get high
I still feel alone but I don't know why
It's just that I'm already numb and we can start that fire

It's true that love can make you blind
