

Can't Do Right

60

If you paid attention you'd see pain in my face
Know things moved so fast but we gon' work at my pace
Please don't break me, I can't take that, I'll lose my faith
All the things you love 'bout me are things that I hate
Took my life and flipped it upside down and sideways
Just for once I wish I could do things the right way

When will I get enough?
If I do, will I give it up?
Promise you I've never felt this much
Yeah I'm on a different planet when I feel your touch
I get a rush when I look into your eyes
Give it up if you want me to feel alive
Promise you I won't be like them other rich guys
Big time, when I make it there I'll never switch sides
But there's one thing with me it's one way or the highway
Just for once I wish I could do things the right way

If you paid attention you'd see pain in my face
Know things moved so fast but we gon' work at my pace
Please don't break me, I can't take that, I'll lose my faith
All the things you love 'bout me are things that I hate
Took my life and flipped it upside down and sideways
Just for once I wish I could do things the right way
