

Distance

60

Goin' the distance
But when it's all over
Over, over, over
Goin' the distance
But when it's all over
Over, over, oh

We gonna part ways
Because my life had demons in all shapes
Might I add, ain't no reason to partake
Was it really that bad? Save yourself from the heartbreak
Aye, aye, aye, aye

Wish that I could tell you to run
But you the only one that's holding me up
That's what I'm on and I just cant get enough
And when we go, you'll look down at me disgusted
Barely made me feel something
At the very least it was something
Because apparently it was nothing
Where the heart was supposed to be
Where the heart is supposed to be
Selfishly, keep you close to me

Goin' the distance
But when it's all over
Over, over, over
Goin' the distance
But when it's all over
Over, over, oh

We gonna part ways
Because my life had demons in all shapes
Might I add, ain't no reason to partake
Was it really that bad? Save yourself from the heartbreak
Aye, aye, aye, aye
