DND

Just fuck me up
Just fuck me up
Just fuck me up

You gon' fuck me up just like everyone else
You gon' fuck me up just like everyone else
Wishing me well in the end
Bringing me hell in the end
Every single God damn time
Fuck it, finna DND the phone line
Yeah, getting high on my own time
Yeah, sabotaging my own mind with the drugs

I'm just living the low life, yeah, with a buzz
Peaking through real slow, light, you covered up
I've said this before, I don't know how to love
I've said this before, I don't know how to love
I'ma sit here alone pouring up 'till I'm numb
Only do it in hope's I can just feel some
I turned so cold, I don't trust no one
I turned so cold, I don't trust no one

You gon' fuck me up just like everyone else
You gon' fuck me up just like everyone else
Wishing me well in the end
Bringing me hell in the end
Every single God damn time
Fuck it, finna DND the phone line
Yeah, getting high on my own time
Yeah, sabotaging my own mind with the drugs

Independent, ride it out on my dolo
If I die, I do it solo
I been feeling so low
Shut up, let me float
Tried to find my halo, sent me back without a pogo
I ain't bouncing back, I guess that God said that's a no no
