

Don't Go

60

Baby be honest
Don't lie to me, don't try with me
Just know that I'll find out
Don't play with me, no don't play with me
'Cause you'll be left alone
I don't wanna have to do it solo
Baby, I just wanna keep you close
I don't ever wanna see you go

Oh no, don't go
Don't wanna do it on my own
I gotta even though I won't
I gotta even though I won't
I won't but know it's on my mind the whole time
Believe this shit, it comes to life in no time
My weaknesses get weaker but it's alright
My peak is when I'm up not when I'm sober
Now I'm so high
When I close my eyes
I see it, don't want it, I need it
When I look at you, I'm speechless
I know that it won't always be peaches
Even when it gets hard, know I'll keep it
The thought of you not with me, it makes me sick
But I know not to depend on this
The highs, lows, they keep me on the ground
And I know the AP on my wrist
It won't be enough to hold me down
To keep me sane, to keep me sound
Need you to stay, please stick around
To keep me sane, to keep me sound
Need you to stay, please stick around

Baby be honest
Don't lie to me, don't try with me
Just know that I'll find out
Don't play with me, no don't play with me
'Cause you'll be left alone
I don't wanna have to do it solo
Baby, I just wanna keep you close
I don't ever wanna see you go
