

Emotions!

60

Spending all this time alone is driving me crazy
I should go and get out more, but I just hate it
I'd rather just sit here in my own head and get faded, get faded

Yeah, I can't take it

These emotions I hold on and bathe in
Can only hold on for so long, I'm sinkin'
I just don't know how much longer I can fake it

So I just get high

Spend this time away from family and I don't know why

I fuck it up like every single time

I wish I could go and take a trip, rewind

I try and smoke the pain away, but don't get high

I wish that I could just get out my own mind

I miss the way you would look into my eyes

I'm trying so hard to forget how it feel

I tried to let go, but this shit too real

If I did this shit to you, how'd it make you feel?

If I did this shit to you, how'd it make you feel?

You feel?

Spending all this time alone is driving me crazy

I should go and get out more, but I just hate it

I'd rather just sit here in my own head and get faded, get faded

Yeah, I can't take it

These emotions I hold on and bathe in

Can only hold on for so long, I'm sinkin'

I just don't know how much longer I can fake it
