

Inhale, really getting hard for me to exhale  
Shawty gettin' lit she off an X pill  
I'ma do it better than your next deal  
Real spill, pop until I'm numb, it don't feel real  
Shawty can you prove you the real deal  
Every time they do, it don't feel real

Be the reason I be losing hope  
Feed the demons keeping me afloat  
Reason be I need to see some mo'  
Leave me be, I need to be alone  
Easy please, I need for you to go  
Breathing leaves, I'm seein' through the smoke  
Feeling things, I need another, oh, oh  
Really getting hard for me to move things  
Things are speedin' up feel like Bruce Wayne  
100 bands ain't enough, feel like loose change  
Why I ain't even sleep in like 2 days  
And they gon' say I'm ballin' like it's 2k  
I just cover all the pain like a toupee  
But they'll bury my away with them blue thangs  
I don't know if you can save me, might be too late

Inhale, really getting hard for me to exhale  
Shawty gettin' lit she off an X pill  
I'ma do it better than your next deal  
Real spill, pop until I'm numb, it don't feel real  
Shawty can you prove you the real deal  
Every time they do, it don't feel real
