

Ghost me, treat me like shit, show me that I ain't worth nothin'
,

Addict to yo body, baby I like fuckin'
That's when I feel best, right now I feel like nothin'
I hate when I get stressed, I need to go take something
Ooh woah, just to get me up
Ooh woah, I do this for what
Ooh woah, I do this for what
Ooh woah

Everything you think is all a lie, yeah
Do I tell you bout me? I'm so tied up, lost
Try to drown it out with somethin' makin' me sauced
Thought I turned into a savage, but inside I'm still soft
Fall, fall
You let me fall, you led me on
Heart is heavy, aw
I wasn't ready, aw
Shit is really getting messy
Out of everybody, thought you'd get me
Thoughts inside our heads are turning deadly
When we fuck, the toxicity sexy

Ghost me, treat me like shit, show me that I ain't worth nothin'
,

Addict to yo body, baby I like fuckin'
That's when I feel best, right now I feel like nothin'
I hate when I get stressed, I need to go take something
Ooh woah, just to get me up
Ooh woah, I do this for what
Ooh woah, I do this for what
Ooh woah
