

I can hide bad things, I can hide my wealth
I can hide my health, wanna hide myself
Seen you out in public, wanna hide how I felt
I can't hide how it felt, I get high it's how it's dealt
I can hide bad things, I can hide my wealth
I can hide my health, wanna hide myself
Seen you out in public, wanna hide how I felt
I can't hide how it felt, I get high it's how it's dealt

I can hide all that, I be rocking all black
Don't call back, no don't want a call back
I could tell you was a hoe, I had to fall back
I do better when alone, no this ain't all bad
Now she hit me up, she know I'm goin' somewhere
On my phone she wanna treat me like I'm all that
I ain't do this, I was hurt and you was nowhere
That's that stupid lil shit I can't, I won't have
Don't want your love, I want that where you put the ball cap
If it's any more, it come with problems, I won't solve that
Remember in the past, I was hurt when I saw that (yeah)
When I saw that (yeah), when I saw that (yeah)
Now I feel too much, I'm broken
I drown in this cup, I'm soakin'
Po' me one more up, I'm loaded (yeah)
I'm loaded (yeah), I'm loaded (yeah)

I can hide bad things, I can hide my wealth
I can hide my health, wanna hide myself
Seen you out in public, wanna hide how I felt
I can't hide how it felt, I get high it's how it's dealt
I can hide bad things, I can hide my wealth
I can hide my health, wanna hide myself
Seen you out in public, wanna hide how I felt
I can't hide how it felt, I get high it's how it's dealt
