

This a vibe that you won't match  
I was on both knees, I prayed for that  
Always receiving what I asked for  
Ain't no laws to that  
Ain't no laws to that  
Ain't no fallin' back  
Because we're way too deep in  
I'ma need all of that  
This a vibe that you won't match  
I was on both knees, I prayed for that  
Always receiving what I asked for  
Ain't no laws to that  
Ain't no laws to that  
Ain't no fallin' back  
Because we're way too deep in  
I'ma need all of that

Everything I could think of mine  
But I can't make my mind up  
That's why I stay so high up  
Because when I come down my time's up  
When I walk in they'll line up  
I really don't give a flying fuck  
I had to stop giving my love  
I think it's 'bout time I wise up  
Because you'll just lie to me  
No, you died to me  
Back then you would die for me  
Now I'm your casualty  
You were sweet, now you're my cavity  
You're so bad for me  
And that's baffling  
I'm really sick of that happening  
Because now I'm only left with half of me  
Over time I forgot about gravity  
Came down and forgot my sanity  
I gave you all of me, you threw that away  
Because now I'm only left with half of me  
Over time I forgot about gravity  
Came down and forgot my sanity  
I gave you all of me, you threw that away

This a vibe that you won't match  
I was on both knees, I prayed for that  
Always receiving what I asked for  
Ain't no laws to that  
Ain't no laws to that  
Ain't no fallin' back  
Because we're way too deep in  
I'ma need all of that  
This a vibe that you won't match  
I was on both knees, I prayed for that  
Always receiving what I asked for  
Ain't no laws to that  
Ain't no laws to that  
Ain't no fallin' back  
Because we're way too deep in

I 'ma need all of that
