

Oh-oh-oh, oh-oh-oh  
Yeah

Going crazy living my life all inside my head  
I got lost inside this cup I can't even find my head  
Demons pop out all up on me like a drive by yeah  
When she asking me how I'm doin' I just like yeah  
Saw the signs like yeah  
Lost my mind right there  
Want some love from me?  
You won't find that there  
Put her trust in me  
Waste her time right there  
When she ask me how I'm doin' I just lie like yeah

I should've assumed that shit wouldn't work yeah  
It get difficult you like a whole different person  
I'm addicted to you I don't think it could worsen  
Now I'm numbin' my mind, to leave from this earth yeah  
Get my shit together before I fold  
Really I do better when I'm alone  
I could change the weather my heart so cold  
Don't wanna burn forever please save my soul  
Sit here all alone I don't got no homie's  
I can't ever trust a bitch cause they always wanna hoe me  
If you want this shit to work all you gotta do is show me  
It's whatever I don't care I do better on my lonely  
I been smokin' so much gas now I'm really starting to panic  
Heart is beating fast, I lost feeling in my hands  
Now it's all up in the air I just really hope I land it  
Ima grip this cup till I find my edge, oh

Going crazy living my life all inside my head  
I got lost inside this cup I can't even find my head  
Demons pop out all up on me like a drive by yeah
