Lil shawty, know I love the way you move it like that
Kill baby, what you do to me, no I won't even cap
What's the price of a soul? And tell me, do what come with that?
I don't know ill never show her but I'm gettin' too attached
Lil shawty, know I love the way you move it like that
Kill baby what you do to me, no I won't even cap
What's the price of a soul? And tell me, do what come with that?
I don't know ill never show her but I'm gettin' too attached

She hot like the summer but problems she run from
Don't see where I come from but she suck my cum up
She see I'm gon' come up, she see all the camas
She beg for this life but she don't see the problems
Just take one good look, get your eyes off my wallet
I'm paid now, I made it but fell to the bottom
I spit this shit raw, fuck this beat with no condom
It's easy, whatever, I got what I wanted
Plant seeds in the dark and surprised when the blossom
I used to get lil bro'd, now I just step on 'em
I ain't check the price on them jeans I just bought 'em
She love how I do it, she say that I'm awesome

Lil shawty, know I love the way you move it like that
Kill baby, what you do to me, no I won't even cap
What's the price of a soul? And tell me, do what come with that?

I'm gon' lie to you and tell you that it's all alright
Yeah that's a flaw of mine, but I'm a ride or die
Check my phone and see the bands so I can't call tonight
But keep on call the vibe, I'll slide some other night
No, you can't ever replace me, I don't want this love with you to turn into a maybe
So, no don't try to snake me, I ain't tryna threaten you but it would make me crazy
