

Feel like my time runnin' out
Try to scream for help no sound
Prove to me what you about
Show me that you're different now
Got this shit on lock, it don't stop like the guap down
Please don't talk with me, let me breathe, drop the top down
P.O.W.E.R. for me like the Rosthchild's
I don't even care if you can see what I'm on now

Bands come straight to me, no I don't chase it
I'm so tired of hoes, they hit my line and sound so basic
Same hoes curved me back then hit me up now 'cause I'll make it
Act like I be in this shit to get paid and get famous
Sorry I already got my girl to hold me down and lift me up
I know what you want, leave me alone, bitch don't make a fuss
All I need is love and I can't get that shit from some suck
Already got enough, I won't throw that shit away for a nut
I'm thinkin' of you
I'm testin' your patience but baby pull through

Feel like my time runnin' out
Try to scream for help no sound
Prove to me what you about
Show me that you're different now
Got this shit on lock, it don't stop like the guap down
Please don't talk with me, let me breathe, drop the top down
P.O.W.E.R. for me like the Rosthchild's
