

I ain't looking back 'cause I'm way too faded
Shawty throwin' ass off the drugs butt naked
Stuck in the past but I know I can't change it
Want us to last but I know I can't make it

I ain't looking back 'cause I'm way too faded
Shawty throwin' ass off the drugs butt naked
Stuck in the past but I know I can't change it
Want us to last but I know I can't make it
Fell asleep at dawn and woke up half-dead
I pretend that nothing's wrong and it's gettin' to my head
I pretend I'm stayin' strong, overthinkin' what you said
Try to tell you what I'm on and I get left on read

But that's alright because I mostly miss the head
That wet wet brought me back to life when I was dead
No flex, I treat you the best
Real spill, foreal, I treat you the best
You say I don't? Okay, alright
You caught me up, okay I'm lying
I'm stressing, roll one up, take flight
But not too much, it's just some slight
Just to get this shit off my mind
Come on over, kick it, let's just vibe
We don't gotta force nothin' but just try
Life without you doesn't sit right
(Just to get this shit off my mind

We don't gotta force nothin' but just try
Life without you doesn't sit right)
