

Got a loosie and a cup full of Jamo
Steppin' up but right below me is my halo
I just hate the way I am, that's why I lay low
I just want you to be you, not what I say so
If she treat me right put her on the payroll
Don't create the biggest shit from what's pequeño
Sometimes this weed got my heart jumpin' like yayo
Overthinking, need a place to MIA, go

I lose myself when I get up
But I get numb when I come down
Feel something with you
But then what happens if you won't stick around?
But we just gotta feel it
I gotta feelin' in me
That this is real, don't let it spill
'Cause we in too deep for real
It don't gotta be what you think it will
'Cause we in too deep for real
It don't gotta be what you think it will
I been feelin' free when I'm with you girl

Got a loosie and a cup full of Jamo
Steppin' up but right below me is my halo
I just hate the way I am, that's why I lay low
I just want you to be you, not what I say so
If she treat me right put her on the payroll
Don't create the biggest shit from what's pequeño
Sometimes this weed got my heart jumpin' like yayo
Overthinking, need a place to MIA, go

Got a loosie and a cup full of Jamo
Steppin' up but right below me is my halo
I just hate the way I am, that's why I lay low
