

Don't know what to do with you I lock up  
You been on my nerves just like a pop up  
Do I leave you out to dry and get my guap up?  
Baby did we spill too much for us to mop up?  
You think too much of me, got me propped up  
I hate that you do, I'm really not much  
Do I leave you out to dry and get my guap up?  
Baby did we spill too much for us to mop up?

Yuh, I don't know  
Shit ain't nothing like it used to be before  
Ain't felt love in so long  
I just want you to know  
That I do still, really do feel, everything that you feel  
Think it's getting too real  
Think it's getting to be too much  
But I don't want you to leave 'cause if you do I'm really fucke  
d  
If I can't believe in you then there ain't no one I can trust  
Tell me what I'm supposed to listen to, my heart, my head, or g  
ut?  
If I lost you I would never even be able to adjust  
When I'm lookin' in the mirror all I'm feelin' is disgust  
All my fans and all these bands are really makin' me corrupt  
Had to calm down, light it up, fill another cup  
Never come down, vices are the key to keep me up

Don't know what to do with you I lock up  
You been on my nerves just like a pop up  
Do I leave you out to dry and get my guap up?  
Baby did we spill too much for us to mop up?
