

You left me empty, just don't forget me  
These drugs are tempting, I need to steady myself  
Hop in a Bentley, y'all know the rest  
And I need the rest of time, just to better myself  
Ain't gon' lie I severed myself  
Shades on now to cover my pain  
Been through hell, I made it myself  
Take one more and say I'm okay

Don't get the picture, I see it's bigger than we could wish for  
, I know  
I need a fixture, no, need to fix it before I cannot return home  
It didn't have to be like this  
But nothing left inside my soul so I just feed my wrist  
A couple steps till I get home and all the fire get lit  
And even if I hated you, I wouldn't wish this shit on you

You left me empty, just don't forget me  
These drugs are tempting, I need to steady myself  
Hop in a Bentley, y'all know the rest  
And I need the rest of time, just to better myself  
Ain't gon' lie I severed myself  
Shades on now to cover my pain  
Been through hell, I made it myself  
Take one more and say I'm okay

Don't want fame, I cover my face  
All fake love, it's always on stage  
Feel too much, I'm digging my grave  
They come and go, I'm losing my faith  
Turned my into what I became  
No heart left, I throw that away  
I don't know me, so she got away  
I roll my leaves and smoke that away  
I wish that it would end, before it began, can't do this again  
I wish that it would end, before it began, can't do this again

You left me empty, just don't forget me  
These drugs are tempting, I need to steady myself  
Hop in a Bentley, y'all know the rest  
And I need the rest of time, just to better myself  
Ain't gon' lie I severed myself  
Shades on now to cover my pain  
Been through hell, I made it myself  
Take one more and say I'm okay
