

Not Right

60

I be beggin' on my knees when I'm not right
Stop light, it don't ever seem like it's not bright
At least I let these racks bust out my jeans and my guap tight
And at least I got like 50 million streams, that's the top, right?

And I've always told you, I ain't had no need for the spotlight
I remember back then I used to be sweet, now it's on sight
Getting really sick of fighting demons, like all night
I can't even seem to go to sleep on the top flight

And this shit is really cutting me too deep, need peroxide
And no matter how far that I try to go, I cannot hide
They wanted me to give up my soul, so they flock, right?
They wanna put me deep in a hole with the box tight
They tell me that I'm out of line, try me I'm prepared to die
Huh, where am I? I've been getting very high
I don't think it's very wise, really got me paralyzed
Think I need to sterilize, no sweet Caroline
She a heartbreaker, soul taker
You'll never find a good heart that be sitting behind make-up
Need to realize love ain't for me, I need to wake up
Guess I need to focus on my greens and get my cake up
She a heartbreaker, soul taker
You'll never find a good heart that be sitting behind make-up
Need to realize love ain't for me, I need to wake up
Guess I need to focus on my greens and get my cake up
