

On Me

60

Love the way your body moves
When it's on me
I need ya on me
I need ya on me
Do you feel it when I look at you?
Do you love me?
Do you even want me?
Please say something

Because you know what I want with you
Baby yeah this hurts, but I just cannot figure out what I should do
I try but why? The message never seems to make it's way through
Why oh why does bliss never ever last? I'm in the blues
I don't know
I used to be numb on my own
Broken with nowhere to go
I must continue to show
Don't wanna, I gotta, see more of that, I know that
Don't wanna, I gotta, see more of that, I know that
Yeah I wanna feel your body
Suck me up through the Tommy's
Don't treat me like a hobby
Just prove me that you want me
Hear me do you copy
Shit is getting messy
Now this shit is getting sloppy
It's okay no one watching
So baby ain't no stopping
Just prove me that you want me
Hear me do you copy

Love the way your body moves
When it's on me
I need ya on me
I need ya on me
Do you feel it when I look at you?
Do you love me?
Do you even want me?
Please say something
