

You don't know real pain, gave you my heart, you did yo thang
Guess, I'll be on my way, hurt the next hoe and it's you I blame

Stress, feel like I'm goin' insane, wanna see what's next but I
know that I can't yet

Still gotta find faith, if I go now I feel like I'll find flame
s, yeah

So sick of hoes playing mind games

That's the last time you play with my name

An apology from you, I'll wait

But your dead to me

Rot, I don't wanna see you no more 'cause you're dead to me

Stop, I don't wanna talk, no more with the messaging

Stop, I don't wanna talk, no more with the messaging

Rot, rot

You don't know real pain, gave you my heart, you did yo thang
Guess, I'll be on my way, hurt the next hoe and it's you I blame

Stress, feel like I'm goin' insane, wanna see what's next but I
know that I can't yet

Still gotta find faith, if I go now I feel like I'll find flame
s, yeah

Damn, I really changed

Used to be a blunt, now I pop to get faded

Always gettin' high, think I'm lost in a spaceship

Tryin' not to mix when I wanna get wasted

I don't wanna die, I know my family can't take it

Since I'm still alive I might as well get blue faces

Everything I do from now, I'll make sure you hate it

I'll be that petty

I'll be, I'll be that petty

Ahh, ahh

You don't know real pain, gave you my heart, you did yo thang
Guess, I'll be on my way, hurt the next hoe and it's you I blame

Stress, feel like I'm goin' insane, wanna see what's next but I
know that I can't yet

Still gotta find faith, if I go now I feel like I'll find flame
s, yeah
