

It's really starting to get crazy
Nobody told me it's dangerous
Prayin' I make it to safety
Industry lookin' like slavery
I started panicking by the daily
Really start makin' me hate it
I'm gettin' paranoid, now I'm shakin'
I might go by a.380
Lookin' for a way out
Nothing left to say now
Lil' bitch I been worried bout my fate now
Hoping I don't burn up when I lay down
Guess for now I'll turn up till my face down

Cased closed, another day down
The moment that I look into her eyes I start to fade out
Baby you just caught me by surprise, but I can't stay now
The last bitch I had always tried to lie, it made me break down
Driving me crazy, driving me mad, now you want time it's too ba
d
You ain't lady, bitch, you is a demon, no I ain't goin' out sad
You was my favorite, bitch, now I just hate, why do I always re
lapse
Ain't no more playin' shit, I'm sick of the games and shit, I n
eed to relax
Because this shit is really way too much to handle
Really gets to me, my head gets all dismantled
Now I'm in too deep, I can't go back to cancel
Back to cancel

It's really starting to get crazy
Nobody told me it's dangerous
Prayin' I make it to safety
Industry lookin' like slavery
I started panicking by the daily
Really start makin' me hate it
I'm gettin' paranoid, now I'm shakin'
I might go by a.380
Lookin' for a way out
Nothing left to say now
Lil' bitch I been worried 'bout my fate now
Hoping I don't burn up when I lay down
Guess for now I'll turn up till my face down
