

# Perfect Timing

60

Yeah you lied, it went over my head  
To be honest, I'm surprised so I keep it silent  
I could see it in your eyes, you didn't want to hide it  
Baby, we try way too hard, we cannot define this  
Wouldn't do this any different, no need to rewind it  
Only way to find love is to stop trying  
I know where your head was at, no need to clarify it  
Now it's me and you, it's us, yeah it's perfect timing

I know where your head was at, no need to clarify it  
Now it's me and you, it's us, yeah it's perfect timing  
I promise this shit won't fade, yeah I'll keep it vibrant  
This feeling in me is great but tends to get violent  
So sometimes I fog it up and I just get high  
To be honest I get faded just to ease my mind  
Think I'm running out of patience, I cannot unwind  
Now at least I don't feel vacant 'cause you're in my life  
Don't act surprised, don't act surprised  
Would give you my life, I would give you my life  
I would give you my life  
I would give you my life

Yeah you lied, it went over my head  
To be honest, I'm surprised so I keep it silent  
I could see it in your eyes, you didn't want to hide it  
Baby, we try way too hard, we cannot define this  
Wouldn't do this any different, no need to rewind it  
Only way to find love is to stop trying  
I know where your head was at, no need to clarify it  
Now it's me and you, it's us, yeah it's perfect timing

I always struggled to trust, something 'bout you changed it  
Don't know how I changed it, it's something I hated  
It'd be way too much if you were to break it  
Oh no don't break it, I couldn't take it  
Don't wanna be famous  
But it has to come with this so I'll take it, yeah, yeah, yeah  
I know I'll be hated  
Once I make it can't go back to the basics, yeah, yeah, yeah  
Don't wanna be famous  
But it has to come with this so I'll take it, yeah, yeah, yeah  
I know I'll be hated  
Once I make it can't go back to the basics, yeah, yeah, yeah
