

Pray For Me

60

Something came to my attention, this fire is burning all in me
This was never my intention but it's the way it's gonna be
Lost soul, lost soul, oh no, oh no
On fire, burn slow, I hope I don't
I hope I don't, I hope I don't, yeah

Pray for me before I go
Stressin' me the more I know
This emptiness inside my soul
It's stuck with me, can't let this go
Stuck with me, can't let this go
Wanna be free, I know I won't
Whole lot of reasons I know I can't
Wanna be free, I know I won't
But I want a way out, this shit it hurts so bad
Shit is stressin' me out, I need a way to relax
So ima fill up this cup and ima roll up that gas
But this shit fuckin' me up 'cause now my life move so fast
I accepted this pain, but I did not want it to last
I move up in this game, but I didn't foresee all this trash
Guess I'll stay in my lane and I'll keep my eyes on this cash
(Got my eyes on the bag, I can't ever go back)

Something came to my attention, this fire is burning all in me
This was never my intention but it's the way it's gonna be
Lost soul, lost soul, oh no, oh no
On fire, burn slow, I hope I don't
I hope I don't, I hope I don't, yeah
