

## Pressure

60

Feel like I'm dead ahh, I wanna feel better, can't get my head  
up  
So under the weather, can't keep it together, but when we're to  
gether  
I start to forget all the pain I feel pleasure, release all the  
pressure  
I start to forget all the pain I feel pleasure, release all the  
pressure

Lately I been such a mess, my heart filled up with regrets  
I been drownin' in my stress, at least I been gettin' checks  
Baby I don't like to flex, but it's all that I have left  
I was right and you went left, really missin' what we had  
I admit it I was bad, I got sad and I would lash, I wish I coul  
d take it back, but I can't  
I'm just doin' what I can, I hope that you understand, tryнна b  
e a better man, but my bad  
So my bad  
So my bad  
So my bad

Feel like I'm dead ahh, I wanna feel better, can't get my head  
up  
So under the weather, can't keep it together, but when we're to  
gether  
I start to forget all the pain I feel pleasure, release all the  
pressure  
I start to forget all the pain I feel pleasure, release all the  
pressure

I start to forget all the pain I feel pleasure, release all the  
pressure  
I start to forget all the pain I feel pleasure, release all the  
pressure
