Rather Be Dead

I just really don't wanna ever see you again
I've been in the worst place and you fail to see that
I replay the worst case in the back of my head
I don't wanna see you, yeah, I'd rather be dead

I just really don't wanna ever see you again
I've been in the worst place and you fail to see that
I replay the worst case in the back of my head
I don't wanna see you, yeah, I'd rather be dead

Bitch you never were there
Only blank stares, you ain't care til' I get some bands up
No you ain't play it fair
Kick you like a can, sorry baby it causes cancer
I'm looking for answers, I don't know no better (better)
I've been feeling oh so low, I can't even pick my head up
Think I lost all hope, oh no, at least I'll get my bread up
Know I ride solo-dolo, I'm sorry that you fed up
Know if I don't put my head up, then my life start moving faste

No there ain't no time for hate, 'cause this in this life it's
love that matters
Maybe I feel so much pain 'cause I can't curb a couple factors
Baby, I ain't sleep for days cause I been worried 'bout the rap
