

Rest My Case

60

Deer caught up in the headlights
Shawty got them red lights
Get me out of bed like I need more
Gotta find the best time
That I can rest my
Case 'fore I wreck my head some more
I don't got a deadline
I be making headlines
Try to make her realize that I'm gone
If I can't get my head right
Might as well get dead guys
Shawty so I rest my case so long

So long
Got no time for them hoes chasin' gold
No hope
Better back out the way 'cause I'm 'bout to blow

All I ever really wanted was a little more from you
And now I wonder what the fuck I'm supposed to do
I think I'm numbing out from all this overuse
I drink another but still can't get over you
Can't blame that for how I am, there's no excuse
I'm the one that spark the fire, there's no excuse

Feel like I'm a deer caught up in the headlights
Shawty got them red lights
Get me out of bed like I need more
Gotta find the best time
That I can rest my
Case 'fore I wreck my head some more
I don't got a deadline
I be making headlines
Try to make her realize that I'm gone
If I can't get my head right
Might as well get dead guys
Shawty so I rest my case so long

(Rest my case so long, rest my case so long)
