Sick

6o

Wanna big Benz truck, no Silverado
Grip my chest, I'm hopin' I don't
I can't breathe, it's hard to swallow
This not me, where have I gone?
She broke me into pieces
All these hoes makin' me sick
All alone, rather be this way

Out of my mind, tell me why we even talking
I had it this time I'm off beam, tryna feel something
I don't know what I want, but I don't do for this nothing
And let 'em talk all they want, I'm the one they wanting
Crazy as it gets, I might need a hit
I might need your time, 'cause I'm wasting mine
Shawty is a dime, you caught me with those eyes
I want that bittersweet love like I'm tasting wine

Out of my mind, tell me why we even talking
I had it this time I'm off beam, tryna feel something
I don't know what I want, but I don't do this for nothing
And let 'em talk all they want, I'm the one they wanting

Wanna big Benz truck, no Silverado
Grip my chest, I'm hopin' I don't
I can't breathe, it's hard to swallow
This not me, where have I gone?
She broke me into pieces
All these hoes makin' me sick
All alone, rather be this way

This my last cup
I'm so fucked up
Think I love her
I can't trust her
Kinks out the hoe, no she can't change she cold
Know she only good when I dump off a load
Soon she suck me up then it's bitch hit the road
3 to 5AM now I can't feel my soul
Kinks out the hoe, no she can't change she cold
Know she only good when I dump off a load
Soon she suck me up then it's bitch hit the road
3 to 5AM now I can't feel my soul

Wanna big Benz truck, no Silverado
Grip my chest, I'm hopin' I don't
I can't breathe, it's hard to swallow
This not me, where have I gone?
She broke me into pieces
All these hoes makin' me sick
All alone, rather be this way
