

Pick your side
Because I don't wanna waste no more god damn time
And when you go I'll just act alright
And god's forgiveness, I passed that by
Don't wanna think, so I just get high
Crazy that you still in my mind
New bitch don't know that 'cause I just lie
I'm too numb, she can't see through mine
In my bag but I'm out my mind

Nah, nah wait, I ain't done
I'ma need another dub
I don't got no time for love
I need many number one's
Yeah, really goin' dumb
That was then and this is now, I'm really missin' what it was
I'ma need another cup, it's how I run
Off the za, in a panic, why's this happening with indica?
Baby you the smoking gun, I'm so done
In my newer shawty's guts but think of you after I finish up
She don't know what I'm thinking 'bout
It's better like that, I'll pretend for now
Shawty my bad when I air it out
Shawty my bad when I air it out

Pick your side
Because I don't wanna waste no more god damn time
And when you go I'll just act alright
And god's forgiveness, I passed that by
Don't wanna think, so I just get high
Crazy that you still in my mind
New bitch don't know that 'cause I just lie
I'm too numb, she can't see through mine
In my bag but I'm out my mind

I'm gettin' too old to talk like that
Them sensitive subjects ain't no iPad
But I can't let go, you the best I've had
My soul ain't for sale but it's up for grabs
Full steam ahead, don't think 'bout my past
But rightfully so, I'ma wish you bad
Uh, right into hell just to be exact
She don't know what I'm thinking 'bout
It's better like that, I'll pretend for now
Shawty my bad when I air it out
Shawty my bad when I air it out

Pick your side
Because I don't wanna waste no more god damn time
And when you go I'll just act alright
And god's forgiveness, I passed that by
Don't wanna think, so I just get high
Crazy that you still in my mind
New bitch don't know that 'cause I just lie
I'm too numb, she can't see through mine
In my bag but I'm out my mind
