

Signs

60

Drop the top and the roof is missin'
Got some new Christian Loub's
AP on my wrist is shining
I can see it in my future, ah, ah, ah
I don't want no number 2, ah, ah, ah, ah
Lately I been missing you, ah, ah, ah, ah
Told her she should come through, ah, ah, ah, ah
Told her she should come through

Baby I can see the signs
You and I until I die
When my life is redefined
Pray that you don't leave my side

If you do I'm in the blues forever
It's just me and you together
Baby we could do whatever
Do it right, don't do it better
If you do I'm in the blues forever
It's just me and you together
Baby we could do whatever
Do it right, don't do it better
Alright
Might have to sever my ties
To get me in the limelight, (limelight) oh
Just to get my mind right, (mind right) oh
(To get me in the limelight, oh
Just to get my mind right, oh)

Drop the top and the roof is missin'
Got some new Christian Loub's
AP on my wrist is shining
I can see it in my future, ah, ah, ah
I don't want no number 2, ah, ah, ah, ah

Told her she should come through, ah, ah, ah, ah
Told her she should come through
