

Yeah it's a vibe, you better come right
Toes down, in the right zone, high on life

Yeah it's a vibe, you better come right
I'm better on my own, that's on life
Toes down, in the right zone, high on life
But soon as the night rolls, I feel alive
I, right, I wanna know why I try
When it's over, I like all the moments I like
But I know when I die, that I won't take flight
No it won't stop, no it won't stop

I was dead for a minute, in my head but now I'm good
Had to find myself, really feeling like I should
Call it quits, yeah I swear I was going through so much shit
Now I'm manifesting my life
Oh I'm doing all right
Slowing shit down, I got no time to unwind
But that's all right I chose this life
I'm good through the day, more alive in the night
Feeling great, bitch I'm blessed
Poppin' off, we got next
You're like, my cigarette
You're bad for me yet I want it
Feeling great, bitch I'm blessed
Poppin' off, we got next
You're like, my cigarette
You're bad for me yet I want it

Yeah it's a vibe, you better come right
I'm better on my own, that's on life
Toes down, in the right zone, high on life
But soon as the night rolls, I feel alive
I, right, I wanna know why I try
When it's over, I like all the moments I like
But I know when I die, that I won't take flight
No it won't stop, no it won't stop
