

No more love for a bitch, numb myself out, keep that from happening  
Say I'm the best you had and you want that back, well bitch that's baffling  
Really thought I'd forget, in this long ass list of shit that's bad for me  
Ya had ya chance and left me damaged, so you keep imagining  
Sorry, I'm just rambling, new bitch, no I don't like gambling  
Good WAP but she too damaging, energy not worth handling  
Get high that's how I handle things, fried, I been scrambling  
In a panic, I'm still managing, no more tries, I'm vanishing

Gotta change up my damn routine, stayin' lit like a damn machine, huh  
Got the spins like a ballerina, my eyes red, ain't no allergies, huh  
Woah, at least my pockets fat, filled with calories  
Curbed a couple formalities, for a different reality  
Woah, movin' slow, energy low  
Feel like I'm broken, don't show emotion, can't get me open  
Woah, movin' slow, energy low  
Feel like I'm broken, don't show emotion, can't get me open  
It is what it is, you get what you give, God gave me a gift to never forgive  
I know that's a lie, I still relive it, and I don't know why I'm still stuck in it  
Now ain't that a bitch, I ain't read the print, I gave her my soul, she took it for a spin  
I always fall in love with a villain, never get back what I gave
