

WHAT CHANGED?

60

Something 'bout you I loved (I loved)
Early on, you was my drug (my drug)
Look at this hole we've dug
Can you tell me what changed?
Shit just ain't been the same
I guess it's okay, oh, oh, oh
I guess it's okay, oh, oh, oh
It's nothing new
So don't look confused when I OD on you
Can't take all the abuse

Baby, I'm drunk on you, ooh, woah, woah, woah, woah, woah, woah
Damn, I know I seem down bad
Probably something slight and sound bad
But it ain't no way around that (that)
Yeah, that's no cap
Need to cook, yeah, where the stove at?
Gotta eat bitch, where the stove at?
I was drunk from your love, no Cognac
Off the drugs, really numb, I'm stuck, sometimes I really feel
like my soul trapped
I was stumped, looking dumb then I looked up, realized I set my
own traps

Wish I could go back
But I can't go back
Cover up my own tracks
Forget my whole past (oh yeah)
Forget my whole past
Forget my whole past

Something 'bout you I loved (I loved)
Early on, you was my drug (my drug)
Look at this hole we've dug
Can you tell me what changed?
Shit just ain't been the same
I guess it's okay, oh, oh, oh
I guess it's okay, oh, oh, oh
It's nothing new
So don't look confused when I OD on you
Can't take all the abuse
