

Don't want you to know where I'm at in my head
I think Ima bottle it up till I'm dead
Don't think I forgot about the things that you said
Don't think I forgot about the things that you said
Right, tried to be the best guy
But you made a mess, why?
You gave me the best high, high

You got me addicted then you left me to dry
And you know I can't forgive ya, no don't hit my line
And I still be having dreams that you was right by my side
And I still be having feelings runnin' all through my mind, yea
h
Push it to the side, yeah, I don't wanna feel like that
Feel like a pussy just 'cause one could make me feel like that
I'm giving so much damn love but I don't get none back
I try to tell you how I feel and then your eyes run back
And now ow I don't trust a soul
Sorry baby I know we just met but that's how it go
Only fuck you one time and then I'm hitting the road
I'm just worried 'bout a check and I know that's what you want

Don't want you to know where I'm at in my head
I think Ima bottle it up till I'm dead
Don't think I forgot about the things that you said
Don't think I forgot about the things that you said
Right, tried to be the best guy
But you made a mess, why?
You gave me the best high, high

Don't want you to know where I'm at in my head
I think Ima bottle it up till I'm dead
Don't think I forgot about the things that you said
Don't think I forgot about the things that you said
Right, tried to be the best guy
But you made a mess, why?
You gave me the best high, high
