

Let ya hair down
When you're up in the club and don't wanna get drunk
Let ya hair down
When you think you're too cute to rock your own suit
Let ya hair down
Why u sittin at the bar acting like u a star
Let ya hair down
Quit stressing your looks and rock to this hook

I see ya in the corner
(With your nose up high actin all anti)
You're looking out of place
(What's the point why did you come to this joint)
Ya puttin too much on it
(Your attitude ain't even wanted)
Just have a good time
(Relax and let the tension unwind)

Look over your shoulder
(Everybody's sweating you couldn't be colder)
Did you wear the wrong shoes
(or is this party just too ghetto for you)
Acting like an outcast
(Frontin like you just don't wanna dance)
Why you trippin' when you
(Brought yourself on you-ain't nothing left to do but)

We keep it moving- it's moving
We keep it jumping- it's jumping
It's non stoppin' - it's poppin'
Can u feel the heat
You need to get out your seat
You wanna bounce to this beat
You need to get on your feet
And just join in with me
