

You hang out on the weekend  
Trying to sort it out  
Everybody's looking so low and gone  
Everything's the same, same

You're easily distracted  
By all the colour schemes  
Everybody's looking so well  
Everything's the same, same

Everybody's looking for the answer  
But you won't find anything here  
We're just too distracted  
Cos we know it all  
Make excitement out of the fear

You take it in small doses  
And you take them by your room  
Everybody's dodging what they got  
Everyone's the same, same

Everybody's looking for the answer  
But you won't find anything here  
We're just too distracted  
Cos we know it all  
Make excitement out of the fear

And everybody's looking for the answer  
But you won't find anything here  
We're just too distracted  
Cos we know it all  
Make excitement out of the fear
